

**FIDELITY RACING®
 V60 TRANSFORMER OIL**

Fidelity Racing® V60 Transformer Oil is a highly refined, petroleum-based coolant and insulating oil for electrical equipment like transformers and electrical circuit breakers that meets the quality requirements of the largest transformer and circuit breaker manufacturers in the world.

APPLICATIONS:

Fidelity Racing® V60 Transformer Oil is recommended for used in power and distribution transformers, and circuit breakers.

BENEFITS:

- Superior resistance to oxidation
- Low volatility and pour point
- High flash point and dielectric strength
- Protection from acid and corrosive sulfur
- compatible with materials used in transformer construction

TYPICAL CHARACTERISTICS

Specific Gravity at 15.6°C	0.8817
Flash Point, COC, °C	158
Color, ASTM	<0.5
Viscosity at 40°C, cSt	9.55
Viscosity at 100°C, cSt	2.41
Viscosity Index	56
Dielectric Strength, KV	50
Neutralization Number, mg KOH/g	0.01
Power factor, 60 Hz, 25°C/77°F,%	0.03
Pour Point, °C	-42

*The above characteristics are average values based on recent production.
 Minor variations which do not affect product performance are to be expected in normal manufacture.*

WARNING:

Continuous contact with used oil has caused skin cancer in animal tests. Avoid prolonged contact. Thoroughly wash exposed areas with soap and water. Keep out of reach of children. Don't pollute. Conserve resources. Return used oil and bottle to collection centers.
